## WASTE MANAGEMENT GUIDELINES AND FEES FOR SHIPS

These waste management guidelines by Port of Uusikaupunki apply in the reception and handling of ship waste in the port area. According to Finnish law on ship waste, ships must dispose of all waste and cargo waste onboard in the portside waste collection stations.

Ships must declare all onboard waste and cargo waste to be disposed of in the port of arrival 24 hours before entering port, barring exceptions. The declaration must be given in the format approved by the Finnish Transport and Communications Agency Traficom.

All ships using the waste management services in the Port of Uusikaupunki are charged a waste collection fee according to the Port's list of rates valid at the time.

Those found to be in violation of these waste management guidelines are liable to reimburse the Port of Uusikaupunki for any additional costs incurred.

In the event of a problem with the waste collection facilities or procedures provided by the Port, contact port control.

## FIXED WASTE COLLECTION FACILITIES

The port area has 3 waste collection stations. The collection stations for ship waste are indicated on the map on the front page.

Sorted waste can be disposed of as follows:

- Metal: Empty tin cans, rims, short pieces of wire, small metal parts
- Glass: Glass bottles and jars
- Cardboard: Cardboard boxes, corrugated cardboard
- Timber: Clean, untreated timber
- Burnable waste: Other waste (burnable)
- Liquid and solid hazardous waste from ships: Waste containing hazardous liquids includes paints, glues, detergents, cleaning agents and solvents. Solid hazardous waste includes batteries, storage batteries and fluorescent tubes.

Accepted types of waste are listed on the side of the container.

Domestic waste from ships must be sorted according to the sorting instructions and disposed of in the correct bins. If the Port finds that a ship has disposed of its waste incorrectly, the costs of additional handling (separation, transport, disposal) are charged from the ship.

## WASTE COLLECTION SERVICES AVAILABLE BY ORDER ONLY

The ship agent orders waste collection by email from port services at [portservice@ukiport.fi](mailto:portservice@ukiport.fi).

### Liquid waste containing oil

Ship waste oils, bilge water and other water containing oil.

### Wastewater from ships

Greywater and blackwater from social facilities, toilets and showers onboard the ship.

### Ballast water from tankers

### Tank wash water

### Exhaust gas wastewater

### Waste from IMDG/ADR/RID cargo
